FOUNDED

- 2006, Ljubljana, Slovenia

KEY NUMBERS

- 100 employees, 1/4 PhD
- 1,500 m² R&D laboratory
- 10 m³ fermentation demo plant

PARTNERSHIPS

- 80 leading chemical and biotech companies
- >30 international patent applications

TECHNOLOGIES

- microfluidics department
- in-house DNA synthesis
- data-based *in silico* media development
- small-scale purification
- automated ALE systems
